

Innovation Simplified. For Everyone.

MINIMISE ALL. MAXIMISE ALL.

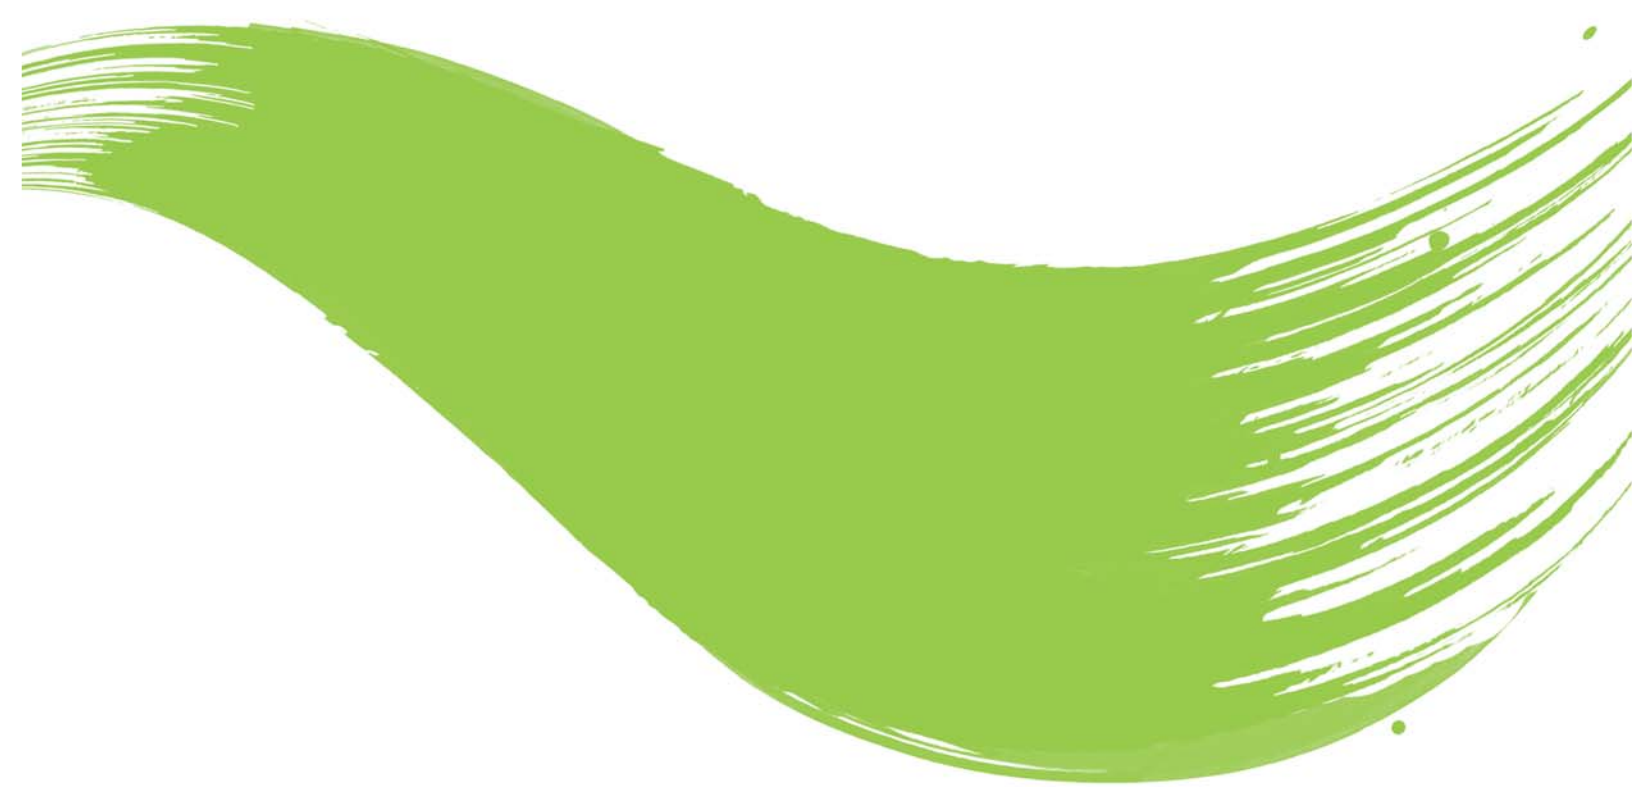

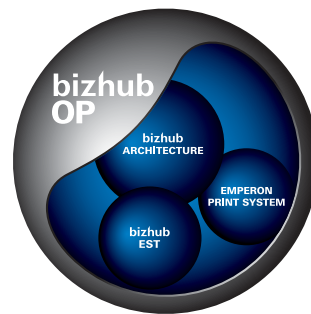

Centrally manage various devices with an integrated management application

PageScope Enterprise Suite is a one-stop solution that integrates and centrally manages various output devices including MFPs and printers.

Get flexible scalability with bEST for a smoother work environment

Seamless integration with external applications is made possible thanks to bEST (bizhub Extended Solution Technology), a core technology of bizhub OP. Even in a mixed-device environment, integrated management, strong security and efficient workflows can be implemented.

bizhub C554/C454/C364/C284/C224

Multi-function to multi-solution. Evolved.

A new work style for the ever-changing office environment

A new user interface for intuitive flick & drag operation

The bizhub C554/C454/C364/C284/C224's new user interface adopts the same flick & drag operation used in mobile devices. Operations will be intuitive from day one.

Superior accessibility

The more advanced interface makes operations easier for any user.

Print and receive with mobile devices wirelessly

PageScope Mobile provides a smart bizhub printing environment for the rapidly growing mobile market.

Proactive cost savings for management and staff

See the paper and power savings with the eco indicator

The bizhub C554/C454/C364/C284/C224 employ an eco indicator that calculates the ecological contribution through paper and power reductions.

Get all employees to reduce wasted outputs

Make duplex printing the default setting to encourage document consolidation. And reduce misprints by confirming the output beforehand with Print Preview Driver.

Reduce wasted power without sacrificing efficiency

Functions such as Eco Scan which controls the fixing heater's operation, Eco PC Print for Sleep mode, the Weekly Timer's learning function and the new Sleep mode which offers faster recovery, Save power on demand without sacrificing efficiency.

Print Preview Driver

Boost knowledge work and workflow efficiency

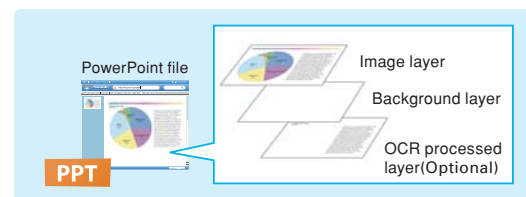

Streamlining the office workflow

High-speed printing/scanning, unsurpassed multi-job efficiency, duplex printing, a network system that utilises idle MFPs for printing*, and more, significantly boost workflow efficiency and reduce costs.

*Optional

DF-701(Optional) 160 opm

Scan to PPT

Information sharing and utilisation

Cutting-edge scanning functions and diverse data storage formats are supported for fast and appropriate sharing and utilisation of information.

Superior Environmental Compatibility

Environmentally considerate resource utilisation

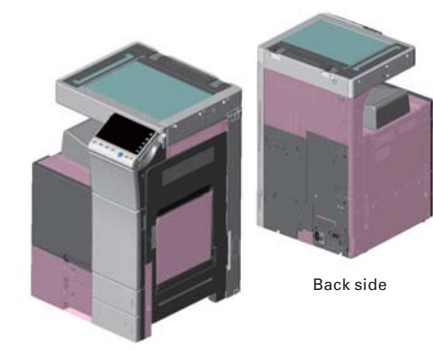

Plant-based resources and recycled materials are proactively used for the main unit to reduce impact on the environment.

Plant-based resources: bioplastic, new Simitri Toner Recycled materials: recycled polycarbonate/PET

Reduce power consumption

State-of-the-art energy-saving technologies such as the newly developed IH low temperature fixing system and LEDs for the scanner's light reduce power consumption.
